

THE BIG CAT TRAILS

The “Big Cat Trails” is an event organized by Paws Trails Explorers, focused on the conservation of Big Cats that are facing serious threats to their existence. The event will have a Coffee Table Book launch, a photography exhibition of the big cats from the wild and a painting exhibition of big cats.

In the pages of this book you will see amazing imagery. Each of those are a special moment out of a photographer’s life, crystalized for eternity. A moment which is being shared, with the hope that you too experience the joy, the exhilaration, the desperation, the fear of that special moment. At PT Explorers we are firm believers that it isn’t a great image unless it packs that emotional quotient.

Powerful images leave everlasting impacts. They are great conversation starters, leading to information exchange, discovery and finally fascination. We have watched this first hand at our exhibitions. Every single one of the cat species featured in this book face serious threats to their very existence. Sadly, the biggest source of these threats are we humans and our mindless activities. They need protection and they need it now.

If an image can bring out the green warrior inside you, then why not?
